Summary of Legislation: This bill requires the county auditor to distribute local income tax revenue to other taxing units not later than ten days after the county treasurer receives the distribution from the state.

Effective Date: Upon passage.

Explanation of State Expenditures:

Explanation of State Revenues:

Explanation of Local Expenditures:

Explanation of Local Revenues: Under current law, distributions of the County Adjusted Gross Income Tax (CAGIT) and the County Economic Development Income tax (CEDIT) are made by the State to counties in two equal installments on May 1st and November 1st each year. County Option Income Tax (COIT) distributions are made to counties in 12 installments, on the first day of each month.

This bill would require the county auditor to distribute the income tax revenue to the taxing units in the county within 10 days of receipt by the county treasurer. Some counties may already make distributions within this time frame and some may not. If any payments from counties to taxing units are sped up under the bill, then county investment earnings might be reduced and the taxing units could earn more interest or save the cost of borrowing for cash flow.

In 2009 certified distributions for CAGIT are \$441.8 M, COIT distributions are \$599.4 M, and CEDIT

distributions are \$280.5 M.
